

OSC November Newsletter

Hello November!

This month we will be testing gravity and creating Balloon Rockets during Space Week. We will be getting creative by Thinking Outside the Box during the second week of November. Mystery play dough and secrets codes will be a couple of the activities during Mystery Week. Our final week of November will be full of Egg-cellent activities!

On top of all the fun activities we will be making Elf Snot for the craft fair on the 15th and 16th of this month.

I have a couple of requests. Will all the wet snow and rain we have been having, the Out of School Care kids have wet mitts by the end of the school day and by the time we end up back at the Center their hands are like icicles! Could parents please send a couple pairs of mitts to keep hands and fingers warm.

I've been reminding the group to pack an extra snack for after school, but we still have a few kids that have hungry bellies and no snack. Please remind your child to save something for after school.

And last but not least, if any parents have any old magazines lying around that you would like to donate it would be greatly appreciated!

Fundraisers:

Nov 15 & 16 we will have a table set up at the Forever Young Craft Fair. We are asking each family to contribute a crafted item or baked goods (with list of ingredients attached). Please package and price items, if you're not sure we have list of pricing from the past. We also will need volunteers to run our table. A sheet with time slots will be set out in the hallway to choose from.

Upcoming: Small Business Christmas Party Dec 7th. Leading up to our event we have our main raffle to sell tickets for. We'll be passing out booklets for families to sell. If you're unable to sell all tickets please return by Oct 25.

Raffle prize: Bradley Smoker BS611 w/ cover, flavour bisquettes, thermometer, grilling mats, \$300 Butcher Block gift card!!

The draw will be at the Christmas Event Dec 7 @ 9pm.

Help us sell out!!
